WASHINGTON. December 1.—President Wilson's letter to Representative of No. on the 30th, and received here at so'clock this morning, corroborates the optimistic report sent by the Brazilian minister. Mr. Silliman interviewed Zapata Saturday night, and expressed the appreciation of foreigners for the order that has prevailed since occupation by Zapata's troops. He presented the case of Mr. Hill, an American, whose dairy has been looted. In Ment of those guilty. He left the City of Mexico yesterday, but his followers are in charge of the city, and quiet prevails.

"The city is well policed; no political arrosts have been made. The Zapatistas have not molested either natives or foreigners except in a few aggravated cases. Upon entry into the suburbs they arrested the manager of the cable office, an American, upon information that false notices were being sent from the city. ALASKA IS FLOODED

Water Driven Far Inland and Storm is increasing in Fury.

NOME, ALASKA, December 1 .- A furious blizzard has forced the Bering Sea icepack high upon the shore, and has driven the water farther inland than it has been for several years. All trails are impassable. Several mining imps along the shore are entirely irrounded by water. All attempts to move the mails have

been abandoned. The water along the beach is rising, but it is believed the ice pack, jammed against buildings and bulkheads, along the waterfront at Nome, will protect them, and it is thought there is little likelihood of their being washed away, as they were a year ago.

At the smaller camps along the shore

conditions are not so favorable. Sol-omon, thirty-two miles east of Nome, and Dickson, the railway terminus at the mouth of the Solomon River, are

The storm is increasing in fury. Early to-day all telephone lines along the coast were torn down.

Before telephone communication ceased a message from Safety Road House, twenty-four miles east of Nome, said that the water pouring in from the sea had forced inmates to seek refuge on the second floor. It is imrefuge on the second floor. It is im-possible to rescue them, as the ice floes

As a member of the Associated Charities, I thank God for the hearty, gracious and generous response to those appeals, because, in and through it, I recognize the Godlike impulse that will not permit a fellow-being to suffer; no, not even at the cost of very material sacrifice, and especially if that fellow-being is a neighbor or townsman."

The minister expressed the hope that when the time for the settlement of the war arrived the United States "would play a noble part" in bringing peace. He was also sure that the heart of Holland would be with the United States in such offorts. Dr. van Dyke will talk over conditions in Europe with President Wilson to-morrow, having been invited to take luncheon at the White House. He came to the United States primarily, he said, to have his eyes treated, and expected to leave Washington to-morrow afternoon and sail for Holland on December 1.—Thousands of persons in many cities who spent hours to-day rushing the offices of internal revenue collectors, alarmed because they could not obtain war revenue stamps, were needlessly frightened over what might happen if they were not on the minute with their stamping. The Internal Revenue Burreau, in the Treasury Department itself, much worried over the task of getting the law into smooth working order, found time late in the day to send telegrams to collectors making it plain that the government had no intention of prosecuting anybody subject to the tax who shows he is willing and ready to huy stamps.
